Our Service

1. INFRA- STRUCTURE & UTILITY WORKS

KABRI offers an extensive spectrum of infrastructure services, encompassing the Civil, Mechanical, Electrical, and Plumbing disciplines. Our highly skilled Engineering and Project Management teams are dedicated to upholding project requirements in terms of time, cost, and quality. With our in-house expertise, we can conceive, plan, procure, and execute large-scale projects in all Civil and MEP Engineering areas. Our primary activities include installing and maintaining electromechanical equipment, land drainage work, and establishing potable water networks, irrigation networks, and pumping stations.

Our Service 2. STEEL STRUCTURES & INDUSTRIAL

KABRI provides a comprehensive range of steel structure works, utilizing our engineering and technical expertise to oversee and deliver various types of projects. Our services encompass designing, erection, and fabricating of steel structures for industrial and residential applications. Specifically, we offer MS fabrication works, warehouses, pre-fabricated structures, industrial and commercial roofing services, and pre-engineered buildings. We ensure seamless production and quality control with our own steel fabrication facilities. Moreover, we have in-house design engineers and collaborate with specialized consultants who provide professional indemnity and conduct independent checks to ensure the highest standards are maintained.

Our Service

3.BRIDGES & TUNNELS

Tunnels and Bridge Construction is one of the primary services offered by **KABRI** International. Our key staff has extensive experience, averaging around 30 years, designing, constructing, operating, and maintaining tunnels and bridges within the Middle East. The construction of bridges involves the utilization of various materials such as concrete, reinforced concrete, and steel. At **KABRI**, we have an in-house team of design engineers dedicated to developing alternative solutions, conceptualizing ideas, producing detailed designs, and implementing value engineering approaches. Furthermore, we have established strategic partnerships with several specialized consultants who assist us with professional indemnity, independent checks.

Our Service 4. MARINE DIVISION

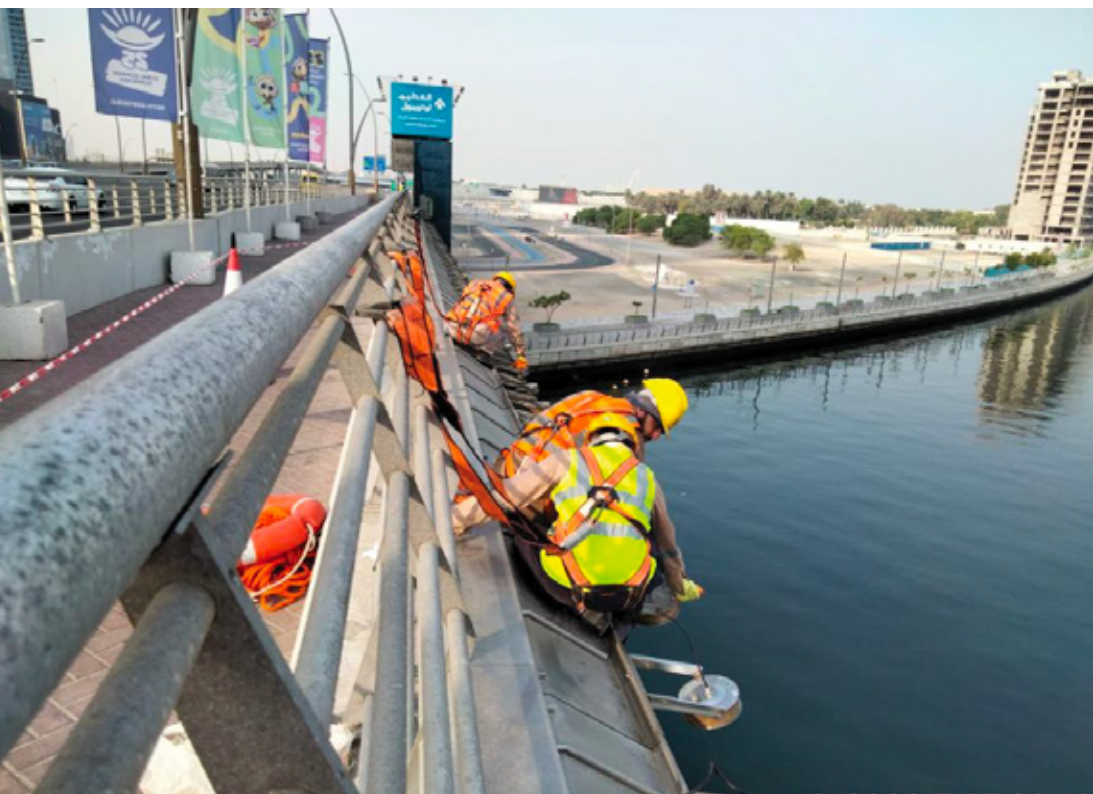

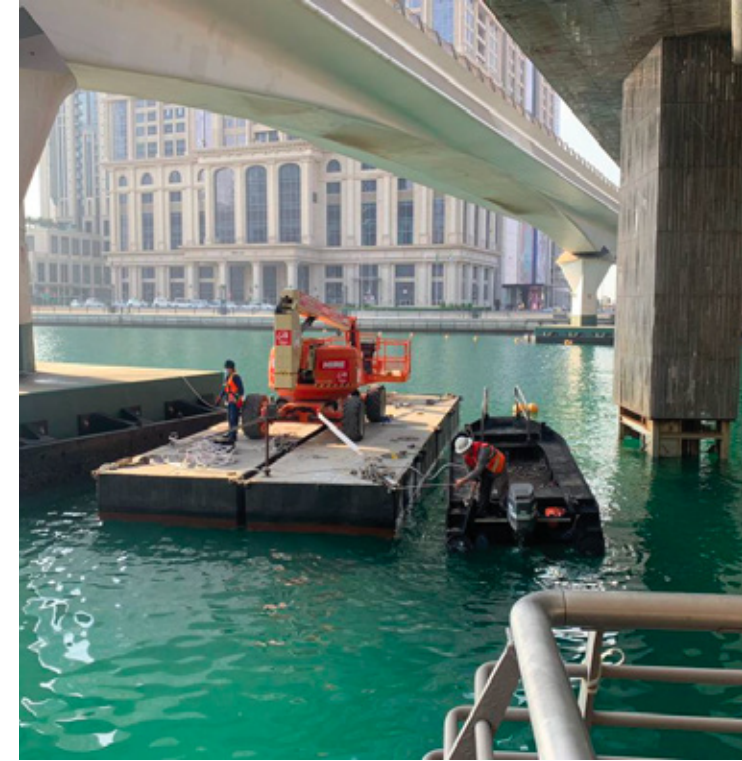

KABRI has a proven track record of providing clients with marine contracting and beach works for over a decade. Our team comprises highly educated and experienced engineering professionals who have successfully delivered numerous marine projects. In addition to marine contracting, **KABRI** offers long-term maintenance services. We specialize in a wide range of marine works, including designing, fabricating, and installing floating marinas and bridges. Our expertise also encompasses concrete construction and repair, steel fabrication, erection and repair, pier and wharf construction and repairs, diving operations, marine surveying, underwater inspection, survey and documentation, underwater demolishing and removal, sheet pile and piling works, as well as slipway design and construction.

Rashid Alnasser

CEO

“I want to express my deep gratitude to our valued customers for their enduring support and affection towards Kabri International. Your trust is the foundation of our success, and we are committed to making your satisfaction our top priority. As we extend our heartfelt thanks, we consider you not just as customers but as essential partners in our journey. Your experiences shape the evolution of Kabri International, and we are genuinely thankful for the collaborative spirit that defines our relationship.

Looking ahead, we are excited about enhancing our products and services. Your satisfaction remains at the forefront of our mission, and we look forward to continuing to exceed your expectations.

Thank you for your unwavering support. We anticipate many more years of shared success and collaboration with you at Kabri International.”

Sincerely,

Mr. Rashid Alnasser
